A Simple Solution that Saves Space, Time, and Money

CTL Chrome All-in-One Computers

Pairing a CTL Chromebox with a CTL monitor creates a pre-built, compact computer that can be used for education in classrooms and libraries as well as enterprise settings for conference rooms, digital signage, and more.

Bundled Solution

CTL All-in-Ones save you the time and hassle of setting up your desktop because they arrive with a CTL Chromebox VESA mounted to the back of a CTL monitor, CTL Works with Chromebook keyboard and mouse, and all the cables pre-installed. This combination creates a simple, space-saving solution for work, school, or play.

Be More Productive

The CTL Chromebox CBx models power your All-in-One with an Intel® processor and up to 8GB of RAM and 256GB of storage. Each device handles multitasking and streaming video with ease. You can work more efficiently with reduced page load times, allowing you to power on through work and play.

A Flexible Solution

Since the Chromebox and monitor are two separate devices, when one needs repair or replacement, there's no need to repair or replace both. And, if you decide at a later day to upgrade the Chromebox or switch to a different screen size, you can do it quickly and easily.

CTL Chrome All-in-One Computers
Simple. Compact. Versatile.

An affordable, pre-packaged combination of a CTL's exceptional Chromebox, monitor, and Works with Chromebook keyboard and mouse.

CTL 22" 2-in-1 Workstations

Available with a CTL Chromebox and a 22" CTL monitor, the CTL22CBx2 and CTL22CBx2-7 2-in-1's can be used for business applications or digital signage and self-serve kiosks. Explore the possibilities with this minimalist and cost-effective computer for home or business.

At just 6" x 6" and weighing 1 ½ lbs, the CTL Chromebox boots up in a flash and synchronizes instantly with your existing Chrome services. The CTL IP2155 monitor provides crisp HD visuals with an LED backlit display and HD resolutions.

CTL 24" 2-in-1 Workstations

The CTL24CBx2-7, CTL24CBx3, and CTL24CBx3-7 2-in-1's are equipped with a CTL Chromebox and a 24" CTL monitor. This simple, space-saving solution for work or play is easy to set up right out of the box.

The CBx Chromeboxes give you access to essentials so you can conduct online research, get office and homework done faster and easier, or watch full HD movies. The IP2381 monitor allows you to stream, work or play without compromising comfort. It's easy on the eyes with 250cd/m2 brightness and thin bezels that look great both at home and in the office.

CTL 27" 2-in-1 Workstations

Go big with either the CTL27CBx2 or CTL27CBx2-7 2-in-1. Both are equipped with a CTL Chromebox and a 27" CTL monitor.

The versatile, cloud-based CBx Chromeboxes are super fast boot-up and include automatic updates. Browse a variety of apps in the Chrome Web Store and enjoy streaming your favorite HD media with seamless connectivity. The IP272781 monitor features a QHD ADS display that employs plane control technology to achieve consistent, accurate color, even at sharp angles.
