

# Let CTL Drive Your Digital Signage Solutions

## The CTL Chromebox CBx Series

CTL offers cost-effective devices backed by customized support to ensure full-service digital signage solutions for retail, airports, schools, libraries, corporate offices - anywhere you want people to access your content.

### Small Footprint, Big Impact

The compact design of the CTL Chromebox means it can fit in, on, or behind just about any display. Measuring 6" x 6" x 1 1/2" and weighing only 3 lbs., It can be mounted to the back of most monitors using the included VESA mount.

### Customer Customizable

Enjoy advanced performance with Intel CPUs, RAM that's customizable up to 64 GB of memory and 256 GB of storage.

### The Complete Package

CTL offers customized kitting for all that is needed for easy installation, setup, and management. All the essentials are carefully packaged - Chromebox, cables, accessories, installation instructions, etc. - and drop shipped.

### Connected and Productive

CTL Chromeboxes easily connect to displays, audio hardware and keyboard devices with HDMI input or wirelessly via Bluetooth 5.1. Wi-Fi 6 makes sure each connected device maintains a quality, secure connection.

### Setup for Success

CTL is there from the beginning to ensure a successful implementation of your digital signage. We provide provisioning with Google ZTE, Google Enterprise licensing, a June 2032 AU, and 2-way shipping for RMAs.

### Fast, Easy, and Protected

This versatile, cloud-based device has super fast boot-up and automatic updates, making it easy to manage remotely. Stream HD media with seamless connectivity. Built-in security means the device is always protected.
