

A Safe, Secure, and “Transparent” Chromebook Solution

The CTL Chromebook PX11E “Secure” Special Edition

The PX11E "Secure" special edition is a Chromebook with a semi-transparent bottom, secured with anti-tamper security screws, that allows visibility into the electronics inside the device.

- ✓ Ideal for correctional education programs
- ✓ Anti-tamper type 6 security screws with double loctite threadlock
- ✓ Rugged design passed multiple MIL-STD 810H tests
- ✓ 180 degree "lay flat" design reduces chance of hinge breaks
- ✓ Ideal learning tool for on-premise classes, workshops, and distance learning
