

CTL CERTIFIED CHROMEBOOK CARE COURSE

Teach Students Tech Skills. Save School Resources. Launch Careers.

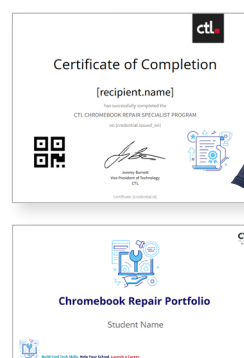

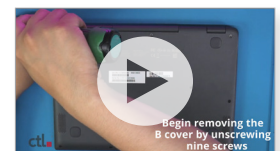

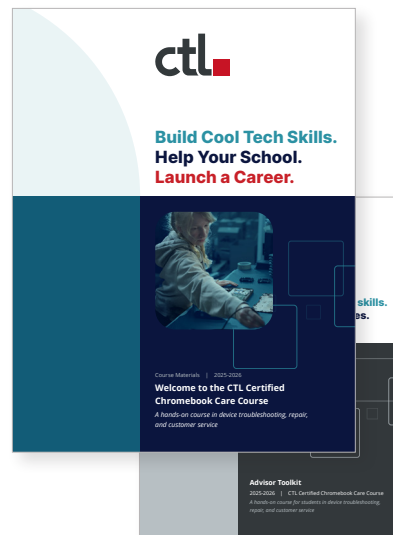

Build a skilled, student-led technical support team with CTL.

CTL's certified Chromebook Care Course is a career and technical education-focused program for students in grades 8-12 that establishes a skilled, student-led Chromebook support team.

Students learn essential hands-on Chromebook hardware repairs and vital professional skills, including customer service, help desk ticketing, and protecting student data privacy. This program helps schools reduce IT workload and repair costs while providing students with tangible experience and a portfolio for future career pathways.

Why this course?

-  Hands-on CTE is growing in demand
-  Student tech education promotes career exploration
-  Chromebook self-repair saves district time, cost, and resources
-  Easy to start, easy to implement
-  Turnkey, flexible curriculum
-  Created by the OEM device experts at CTL

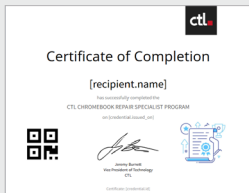

This Course Can Change Lives

As a benefit to CTL customers, this program is offered FREE of charge.

Requirements simply include:

- CTL hardware customer
- Ownership of at least 50 CTL Chromebooks
- Have technical staff who can be authorized by CTL to provide this course
- Can provide space, tools, and parts for Chromebook repair
